Last weekend, my friends and I went to Tai Hung for an outing by a school bus. When we arrived there, an old man told us that there was a large monster with sharp teeth and three eyes. He thought it was terrible. But all of us just laughed and thought it was a joke. We did not think it was true.

After that, some of my friends played badminton and some of them had a barbecue. But I prefer to see the beautiful view. There was only a reservoir in my mind but not the monster. I was very pleased that there was no monster. We were very happy.

All of a sudden, a big monster jumped out from the water and splashed the water to us. The same with the man told us, we were very afraid and screamed as loud as we could.

The monster ran after us and we got on the school bus. We asked the driver to drive as fast as he could. At last, we safely returned back school and the monster had went back to

the water. We were all very glad. Our teachers
said that they will take us to another place. I
hope there will be no monster come out anymore.
