Last summer, my family and I had an amazing holiday on a beautiful resort island. It was the best place that I have ever been to.

On the first day, we decided to go hiking on the marvellous hill there. I took a lot of photos there, because it was very nice. Although it was very tiring, we had a lot of fun, and I enjoyed myself.

After all that hiking, we were very hungry. Therefore, we went to the seafood restaurant to have supper. There were a lot of different kinds of sea creatures there that I have never seen before. After we were all satisfied, we went for a peaceful walk in the garden.

The next day, we went to the beach to swim and play. Because it was very hot, we did not stay there for too long. We visited the only temple on the island on that day. I didn't like the temple very much, because I don't like ancient or old places, and there was a lot of smoke from the fire and incense in there too.
The smoke from the temple did not smell very nice, and it made me feel dizzy, so I decided to go to the forest to breathe in some fresh air. There were flowers, grass, trees, and some animals there, it made me feel like I was in a forest! Since it was quite late after our adventure, so we went to the camping area to have a barbecue. I had a lovely time there too.

The next day was a very unpleasant day, because it was the day that we had to leave the island. The last thing we did there was to feed the fish in the lake. We were all very sad to leave, because it was such a nice place. I recommend every person to have a nice holiday there, because that island was very nice, almost like heaven. I really want to go to that place in my next holiday!
